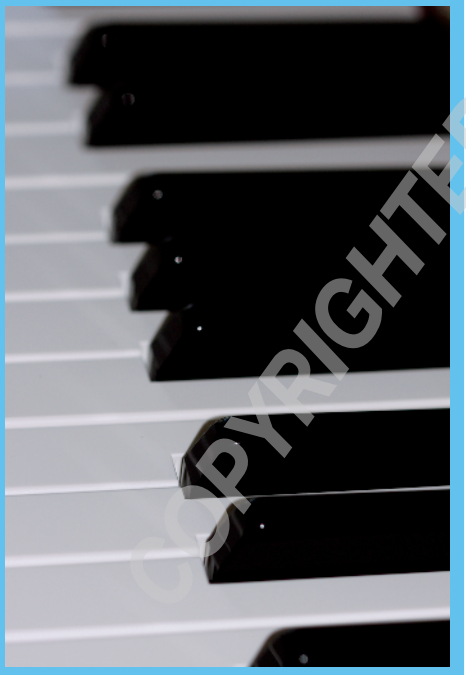
Introduction vii

Getting the Most from This Book viii

Part I: Using the Canon EOS 40D 1

Chapter 1: Exploring the Canon EOS 40D 3



Anatomy of the EOS 40D 4
- Camera controls 4
  - Top camera controls 5
  - Rear camera controls 6
  - Front camera controls 9
  - Camera terminals 11
  - Side and bottom camera features 11
- Lens controls 11
- Viewfinder display 13
- Camera menus 13

Setting the Date and Time 18

Choose the File Format and Quality 19
- RAW versus JPEG format 19
  - JPEG capture 19
  - RAW capture 20
  - sRAW capture 21

Setting File Numbering 23
- Continuous numbering 24
- Auto Reset 24
- Manual Reset 24

Shooting Modes 25
- Basic Zone modes 26
  - Full Auto mode 27
  - Portrait mode 27
  - Landscape mode 28
  - Close-up mode 29
  - Sports mode 29
  - Night Portrait mode 30
  - Flash Off mode 31
- Creative Zone modes 31
  - Program AE 31
  - Shutter-Priority AE 32
  - Aperture-Priority AE 33
  - Manual mode 34
  - Bulb 35

COPYRIGHTED MATERIAL

Chapter 2: Working with the Canon EOS 40D 37

Understanding and Using Autofocus 37
About autofocus points and autofocus modes 38
Does focus-lock and recompose work? 40
Selecting AF points 41
Verifying sharp focus 44
Selecting a Metering Mode 44
Evaluating Exposure 47
Brightness histogram 47
RGB histogram 48
Modifying Exposure 51
Automated Brightness and Contrast Correction 51
Highlight Tone Priority 51
Auto Exposure Lock 52
Auto Exposure Bracketing 54
Exposure Compensation 55
About ISO settings 57
ISO Range, Expansion, and C.Fn options 58
Setting the ISO and extended range ISO 60
Selecting a Drive Mode 61
Viewing and Playing Back Images 64
Single-Image playback and Magnified view 65
Index display 67
Jump quickly among images 68
Erasing Images 69
Protecting Images 70
Displaying Images on a TV 71
Restoring the Camera's Default Settings 72
Cleaning the Image Sensor 73
Obtaining Dust Delete Data 74
Applying Dust Delete Data 75
Cleaning the sensor manually 76

Chapter 3: Color and Picture Styles 79

About Color Spaces 79
Choosing a Color Space 82
Choosing White Balance Options 82
Approaches to using various White Balance options 85
Set a custom white balance 86

Use White Balance Auto Bracketing 88
Set a White Balance Shift 90
Specify a color temperature 92
Choosing and Customizing a Picture Style 93
Registering a User Defined Picture Style 99
Using the Picture Style Editor 100

Chapter 4: Customizing the EOS 40D 105

Learning about Custom Functions 106
Custom Function groupings 106
Custom Functions specifics 108
C.Fn I: Exposure 108
C.Fn II: Image 112
C.Fn III: Autofocus/Drive 113
C.Fn IV: Operation/Others 118
Setting Custom Functions 118
Creating Custom Function sets 122
Wedding set 122
Landscape and Nature set 124
Registering Camera User Settings 124
Customizing My Menu 129

Chapter 5: Using Live View Shooting 131

About Live View Shooting 132
Live View Features and Functions 132
Live View using autofocusing 132
Exposure simulation and metering 133
Using a flash 133
Setting up for Live View Shooting 134
Live View function settings 134
Custom Functions for Live View shooting 136
Custom Function III-6 136
Custom Function IV-7 137
Shooting in Live View 137
Using autofocus or manual focus 137
Using tethered or wireless connection 139

Part II: Getting the Most from the Canon EOS 40D 143

Chapter 6: Selecting and Using Lenses 145

Understanding the Focal Length Multiplication Factor 145
Lens Choices 147
- Wide angle 147
- Normal 148
- Telephoto 148
- Macro 148

Zoom Versus Prime Lenses 149
- About zoom lenses 149
  - Zoom lens advantages 150
  - Zoom lens disadvantages 150
- About prime lenses 151
  - Prime lens advantages 151
  - Prime lens disadvantages 151

Canon Lens Terminology 151
Using Wide-Angle Lenses 154
Using Telephoto Lenses 156
Using Normal Lenses 158
Using Macro Lenses 159
Using Tilt-and-Shift Lenses 159
Using Image Stabilized Lenses 160
Exploring Lens Accessories 163
- Lens extenders 164
- Extension tubes and close-up lenses 165

Chapter 7: Working with Light 167

Understanding Color Temperature 167
The Colors of Light 170
- Sunrise 170
- Midday 171
- Sunset 172
- Diffused light 172
- Electronic flash 172
- Tungsten light 173
- Fluorescent and other light 173

Metering Light and Reflected Light 174
Additional Characteristics of Light 175
- Hard light 175
- Soft light 176
- Directional light 176

Chapter 8: Using Flash 179

Exploring Flash Technology 179
Using Onboard Flash 182
Disabling the flash but enabling the flash's autofocus assist beam 184
Red-eye reduction 184
Modifying Flash Exposure 185
Flash Exposure Compensation 185
Flash Exposure Lock 187
Using Flash Control Options 189
Using One or More Accessory Speedlites 192

Chapter 9: In the Field with the EOS 40D 193

Action and Sports Photography 193
Inspiration 195
Taking action and sports photographs 196
Action and sports photography tips 198
Architectural and Interior Photography 199
Inspiration 200
Taking architectural and interior photographs 202
Architectural photography tips 204
Business Photography 204
Inspiration 206
Taking business photographs 207
Business photography tips 209
Editorial Photography 209
Inspiration 211
Taking editorial photographs 212
Editorial photography tips 214
Macro Photography 214
Inspiration 216
Taking macro photographs 217
Macro photography tips 219
Nature and Landscape Photography 219
Inspiration 221
Taking nature and landscape photographs 221
Nature and landscape photography tips 223
Night and Low-Light Photography 223
Inspiration 225
Taking night and low-light photographs 226
Night and low-light photography tips 228
Pet and Wildlife Photography 230
Inspiration 231
Taking pet and wildlife photographs 232
Pet and wildlife photography tips 234

Portrait Photography 234
Lens choices 234
Lighting 235
Accessory flash 236
Posing 236
Rapport 237
Direction 237
Inspiration 237
Taking portrait photographs 238
Portrait photography tips 240
Stock Photography 241
Inspiration 242
Taking stock photographs 243
Stock photography tips 244
Travel Photography 245
Inspiration 246
Taking travel photographs 247
Travel photography tips 248
Wedding Photography 249
Inspiration 250
Taking wedding photographs 250
Wedding photography tips 252

Part III: Completing the Picture 253

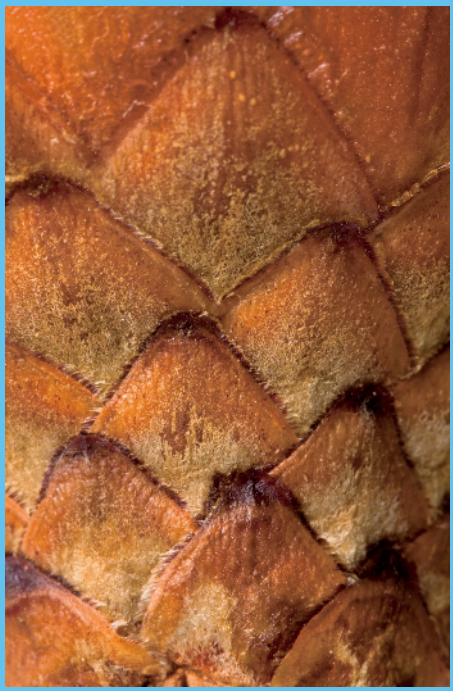
Chapter 10: Working with RAW Capture and Updating Firmware 255

Characteristics of RAW Images 255
Choosing a RAW Conversion Program 258
Sample RAW Image Conversion 262
Creating an Efficient Workflow 264
Updating the 40D Firmware 266
Getting the latest firmware and software 266

Appendix A: Image Sensors and the Canon DIGIC Processor 269

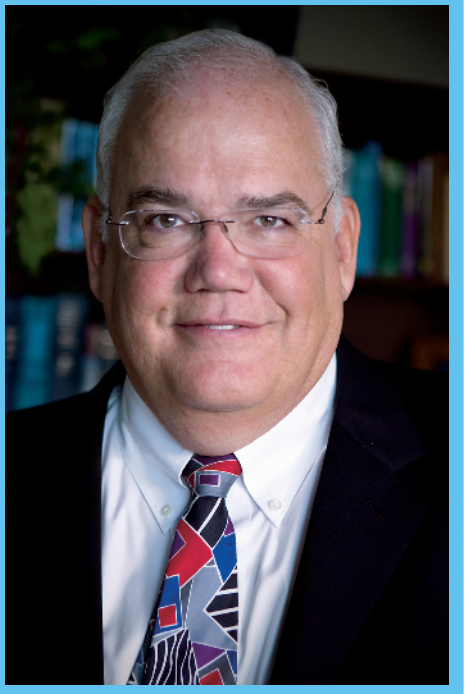
Sensor Technology 269
DIGIC III Image Processor 271

Appendix B: EOS 40D Specifications 273



Type of camera 273
Image sensor 273
Recording system 273
White balance 274
Viewfinder 274
Autofocus 274
Exposure control 274
Shutter 275
Built-in flash 275
Drive system 275
LCD monitor 275
Playback 275
Image protection and erase 275
Menus 276
Power source 276
Dimensions and weight 276
Operating conditions 276

Appendix C: Professional Resources 277



Internet Resources 277
Photography Publications and Web Sites 278
Professional Organizations 278
Commercial 278
Editorial/Photojournalism 279
Fine art 279
General 279
Nature and wildlife 279
Photoshop 279
Portrait/Wedding 279
Stock 279
Workshops 279

Glossary 281
